Tie bars or collar bars slide through the lapels of the shirt, underneath the tie knot to hold the tie in place. They can be plain or have jewels on them.

Magnetic number holders securely hold the rider's number in place on the back of their vest. They come in many shapes and sizes and can be purchased from vendors at shows. By using magnets the vest is not damaged. Safety pins can also be used.

Barrette and bow accessories are usually small in size and come in many different colors and styles. Riders can purchase bows and barrettes from vendors at shows.

Buns are required for female riders in the show ring. Hair is pulled into a low bun at the nape of the neck, supported by a hairnet and hairpins. Hairnets can be purchased at Sally Beauty Supply and are available in multiple colors. Some additional supplies needed are hairspray, hairnet, hair-pins and teasing brush.
